UNITED STATES DISTRICT COURT
WESTERN DISTRICT OF WASHINGTON, SEATTLE

**OMNI INNOVATIONS, LLC, a
Washington Limited Liability
company; and JAMES S. GORDON,
JR., a married individual,**

Plaintiffs,

v.

**eFinancial, Inc. and JOHN DOES, I-
X,**

Defendants,

NO. CV06-01118

**DECLARATION OF JAMES S.
GORDON, JR. IN SUPPORT OF
PLAINTIFFS' MOTION FOR
PARTIAL SUMMARY JUDGMENT
FOR INJUNCTIVE RELIEF**

1. I, James S. Gordon, Jr., am the Plaintiff in the above captioned lawsuit. I am over the age of 18, of sound mind, and am otherwise competent to testify.

2. I am owner of the domain name Gordonworks.com, which I registered on or about May

1998.

3. I have been plagued by spam for well over eight years. Over time, my spam problem has grown more and more severe, and has now spiraled out of control, consuming more and more of my time and resources. From late 1998 to late 2003, I fought spam by deleting, complaining, reporting, and filtering it. My first lawsuit against a spammer was filed a full five years after the inception of this persistent spam problem, i.e. December 2003.

And to this point, all my efforts to curtail the onslaught of spam have failed. I have been substantially adversely impacted by the continued onslaught of spam. **Exhibit "A"** is a true and correct copy of a letter to my congressman concerning my first major battle with a spammer in 1999.

4. Despite numerous requests and demands to cease and desist, Defendants continue to send unlawful spam to me! Defendants have continued to send spam to me up until June 18, 2007, and throughout the pendency of this litigation. (See copies of a recent spam from Defendants, attached hereto as **Exhibit "B"**.)

5. Defendant, eFinancial, LLC, uses co-op advertising provided by another defendant in and Omni lawsuit, Adknowledge. This advertising allows various companies a number of ad impressions before the next company's ads are visible to the recipient of the spam.

6. Beginning on or about February 15, 2004, I configured the email server hosting my 'gordonworks.com' domain to provide an automated response a/k/a "Auto-responder" to any and all commercial electronic mail. Copies of the automated response messages are attached hereto as **Exhibit "C"**. By this means, I have personally, on behalf of

Fax: 206-624-0717

1 'gordonworks.com', sent approximately 70 direct email requests to defendant and/or
2 defendant's agents to stop the transmission of all email to me.

- 3 7. Additionally, I have sent or caused to be sent on my behalf close to one million auto-
4 responder cease and desist messages to spammers during the period of February 2004 to
5 May 2006. Of that number, I have retained about 320,000 messages, which bounced back
6 from spammers who supplied bogus return email addresses in their emails or who had
7 their services terminated/disabled.

8
9 **Facts Related to My Attempts to Stop Spam Generally and Adverse Impacts from Spam**

- 10 8. I have made the following efforts to stop spam generally, including spam received from
11 Defendants, and have suffered the following adverse impacts and damages as a result of
12 the spam received from Defendants and others.

13 7.1 In January and February 2005, I purchased a new business computer along with a
14 second business computer to help with the increased load of spam. In May 2005,
15 my monthly service fee increased from approximately \$40/month to about
16 \$65/month. In November 2006, this fee increased to about \$180/month – in Feb
17 2007 to \$220/month. All to handle the increased burden of managing spam.

18 7.2 I was forced to add "staff" by way of engaging the Assisted Server Support team
19 at Godaddy for a monthly fee of \$99. The alternative is to pay \$75/hour for
20 independent IT services.

1325 Fourth Ave., Suite 940
Seattle, WA 98101
Phone: 206-304-5400
Fax: 206-624-0717

1 7.3 It has been necessary to purchase numerous forensic tools, anti-virus tools, anti-
2 spyware tools, and spam filtering tools over the last four years. I have spent
3 approximately \$2000.00 on these tools and services.

4 7.4 The large volume of spam received caused a displacement of over 25 Gigabytes
5 of hard disk storage space on two computers.

6 7.5 I lost the use of my laptop as its hard drive was "overrun" with spam necessitating
7 the purchases of the two computers in 6.1, above.

8 7.6 On a personal level, time dealing with spam is time away from my family.

9 7.7 I have suffered a significant loss of time spent on more productive pursuits, such
10 as my Ph.D. program which was initially a three year program. After years of
11 dealing with the spam problem, I will finish in a little more than five years.
12 Product development efforts in my business have also been hampered, and slowed
13 significantly.

14 7.8 I have suffered a loss of control of my intellectual/personal property, (domains) to
15 spammers, and a loss of privacy and loss of peace of mind to enjoy my domain
16 and the unfettered use of the internet.

17 7.9 I have been "joe-jobbed" by spammers whereby spammers subvert my domains
18 by "stealing" my identity, which makes it appear that my domains are sending
19 spam. As a result of this subterfuge, my domains are being blocked from sending
20 legitimate email communications (non-commercial).

Fax: 206-624-0717

1 7.10I have been subjected to dictionary attacks wherein a spammer uses automated
2 means to guess at possible names and sends spam to these newly created names at
3 gordonworks.com, thereby again increasing the volume of spam received and
4 resulting consequences.

5 7.11Spammers have sold my personal profile for profit to other spammers.

6 Apparently, the buying and selling of personal profiles is a prime means of
7 remuneration for online marketers. Each email address one owns must be de-
8 listed from the hundreds or thousands of “host names” owned and controlled by
9 each spammer. And once this is accomplished, spammers and their affiliates
10 create new host names to spam from – making successful de-listing virtually
11 impossible. Global de-listing is not available from the majority of spammers and
12 from spammer domains not yet created.

13 7.12I receive 20-100 viruses/malware emails each week. This number has been as
14 high as 500-600 per week. This has resulted in four server crashes that
15 necessitated the purchases of new hard drives or computers since January 2005.
16 These crashes resulted from malware infections of my computers. These
17 infections have also caused the loss of business data including tax and banking
18 files.

Phone: 206-304-5400
Fax: 206-624-0717

1 7.13I have also been forced to expend considerable time and labor dealing with client
2 spam problems presented to me by my customers, including malware removal,
3 recovered/replaced hard drives, installed virus and adware programs, etc.

4 7.14I have been forced to change Internet Service Providers four times since 2000 as
5 none were able to help me to effectively curb the spam.

6 7.15I have sent approximately 14,000 separate and distinct complaints to my ISPs,
7 spammers' network service providers, Richland and Kennewick Police Depts.,
8 Federal Trade Commission, Securities and Exchange Commission, Washington
9 State Attorney General's Office, and four state and federal legislators.

10 7.16I have spent time and labor writing, locating, and mailing dozens of certified
11 cease and desist letters to spammers.

12 7.17I have used the automated un-subscription program, SpamFire with SpamCrime
13 Reporter, created by Matterform Media to unsubscribe from over one hundred
14 thousand spammers' offers. This tool uses the methods available in the email and
15 web site it points to to automatically opt-out of each email received. This includes
16 any email received from defendants during the approximate time period of 2004-
17 6.
18

19 7.18My server has been burdened by spam which features images in the place of text
20 - text is easier to filter. Image spam is necessarily 30-50 times larger than text

1 messages, which are the norm of email communications, which significantly
2 increases the use of bandwidth and usurps hard-drive capacity.

3 7.19 The time I am forced to spend is 90-120 minutes per day – 365 days per year
4 downloading and filtering spam.

5 7.20 I have postponed adding 110 new interested customers to my server, because
6 spamming is out-of-control. The fee paid to me would cover the base cost of
7 Omni's server, but the added work due to spam makes this endeavor too costly.

8 7.21 I have had to increase my bandwidth capacity from less than 10GB/month to
9 500GB/month in the past 2 years.

10 7.22 All of the 200+ reciprocal links I hosted on my web sites between 1996-2003
11 have been lost due to lack of maintenance of my web site resulting from the
12 above-described burden of dealing with the spam problem.
13

14 8. Defendant, eFinancial, LLC, has sent plaintiff approximately 140 spam with one or more
15 forged headers, and sent plaintiff approximately 30 spam that were received via a relay in
16 a prominent blocklist, i.e. Spamhaus and/or Spamcop, which uses a blocked internet
17 protocol address/domain.
18

19
20 I declare under penalty of perjury under the laws of the United States that the foregoing is
21 true and correct.
